**Citizens Telephone Company's demonstration of complying with applicable service quality standards and consumer protection rules:**

In establishing this certification in its *2005 ETC Order*,<sup>1</sup> the FCC found that an ETC must make "a specific commitment to objective measures to protect consumers."<sup>2</sup> The Commission found that for wireless ETCs, compliance with CTIA's Consumer Code for Wireless Service would satisfy this requirement and that the sufficiency of other commitments would be considered on a case-by-case basis. In this context, the FCC stated, "to the extent a wireline or wireless ETC applicant is subject to consumer protection obligations under state law, compliance with such laws may meet our requirement."<sup>3</sup>

**Citizens Telephone Company** ("Company") hereby certifies that it is complying with applicable service quality standards and consumer protection rules. The Company complies with service quality and consumer protection provisions under state law. These provisions include, but are not limited to, the following: (1) filing a Local Exchange Tariff pursuant to the requirements of The Missouri Public Service Commission which discloses rates, terms and conditions of service to customers; (2) compliance with state consumer protection provisions relating to Customer Services as identified in section 4 CSR 240-32.050 of the Missouri Code of State Regulations, compliance with provisions for Quality of Service as identified in section 4 CSR 240-32.070 of the Missouri Code of State Regulations, compliance with Service Objectives as identified in section 4 CSR 240-32.080 of the Missouri Code of State Regulations, compliance with customer Inquiry

### **Citizens Telephone Company Ability to Function in Emergency Situations**

Citizens Telephone Company ("Company") hereby certifies that it is able to function in emergency situations as set forth in the Code of Federal Regulations, Title 47, Part 54, Subpart C, §54.202(a)(2)<sup>1</sup> and the Missouri Code of State Regulations. The Company's network is designed to remain functional in emergency situations without an external power source, is able to reroute traffic around damaged facilities, and is capable of managing traffic spikes resulting from emergency situations as required by Section 54.202(a)(2). The Company can change call routing translations as needed to reroute traffic around damaged facilities. Changing call routing translations will also allow the Company to manage traffic spikes throughout its network, as emergency situations require.

Specifically, each central office building is supplied with standby generators and battery reserve that enable the central office to keep running until power is restored so long as fuel is available, or until system changes are made to reroute traffic. The Company has battery backup at all office locations and in its electronic equipment sites and has a maintenance program in place as described in section 4 CSR 240-32.060 of the Missouri Code of State Regulations.

---

<sup>1</sup> Section 54.202(a)(2) requires ETCs that are designated by the Commission to "demonstrate its ability to remain functional in emergency situations, including a demonstration that it has a reasonable amount of back-up power to ensure functionality without an external power source, is able to reroute traffic around damaged facilities, and is capable of managing traffic spikes resulting from emergency situations."

Service Commission

1. If it is deemed necessary by the Company to safeguard its interests, applicants for service or present customers may be required to make a deposit of an amount not to exceed the sum of two (2) months' monthly recurring charges for services subscribed to plus two (2) months' estimated long distance charges. If the customer's service is terminated for any reason the deposit will be applied to reduce the amount of any unpaid charges for exchange or long distance service.

The deposit shall bear interest at a rate which is equal to one percent (1%) above the prime lending rate as published in the *Wall Street Journal*. This rate shall be adjusted annually on December 1 using the prime lending rate, as published in the *Wall Street Journal* on the last business day of September of each year, plus one percent (1%). The interest shall be credited annually upon the account of the customer or paid upon the return of the deposit after the date on which a reasonable effort has been made to return it to the customer.

2. An applicant for service, or present customer, may satisfy a deposit requirement by providing a Contract of Guaranty in an amount not more than the requested deposit from a present customer acceptable to the Company. The guaranty contract shall be on a form provided by the Company which shall include the Company's right to transfer charges to the limit of the guaranty, from a defaulted bill of the customer, from whom a deposit or a Contract of Guaranty was required, to the guarantor's account or accounts and the further right to suspend guarantor's service.
3. The fact that a deposit has been made, or a guaranty provided, shall in no way relieve the customer from complying with the Company's regulations as to the prompt payment of bills, nor constitute a waiver or modification of the regular practices of the Company providing for the temporary suspension of service or the termination of the service contract for non-payment of bills.
4. Service may be discontinued for failure to furnish a suitable deposit as outlined in Section 3.9(D) hereafter.

Service will not be installed for a period of less than one month unless the subscriber pays, in addition to one month's rental, the cost of installation and removal of the necessary facilities.

**B. Termination of Service - Subscriber's Request**

Service may be terminated prior to the expiration of the minimum contract period upon notice being given to the Company, and upon payment of any applicable termination charges, in addition to any applicable charges due for service which has been furnished.

Contracts for periods longer than one month covering services which installation required line extensions may be terminated upon payment of all charges that would accrue to the end of the contract period. Alternatively, the contract may be transferred to a new applicant who is to occupy the same premises and will subscribe to the service effective on the day following termination by the original subscriber upon agreement by the new applicant to assume the responsibilities of the contract.

Service may be terminated after the expiration of the initial contract period, upon the Company being notified, and upon payment of all charges due to the date of termination of the service.

3.12 Disputes by Residential Customers

(N)

- A. A customer shall advise the Company that all or part of a charge is in dispute by written notice, in person or by a telephone message directed to the Company during regular business hours. A dispute must be registered with the Company prior to the delinquent date of a charge for the customer to avoid discontinuance of service as provided by this tariff.
- B. When a customer advises the Company that all or part of a charge is in dispute, the Company shall record the date, time and place the inquiry is made; investigate the matter promptly and thoroughly; and attempt to resolve the dispute in a manner satisfactory to both parties.
- C. Failure of a customer to cooperate with the Company in efforts to resolve an inquiry which has the effect of placing charges in dispute shall constitute a waiver of the customer's right to continuance of service under this tariff.
- D. If a customer disputes a charge, the customer shall pay an amount to the Company equal to that part of the total bill not in dispute. The parties shall consider the customer's prior usage, the nature of the dispute and any other pertinent factors in determining the amount not in dispute. The Company shall not discontinue service for nonpayment of charges in dispute while the dispute is pending.
- E. If the parties are unable to determine the amount not in dispute, the customer shall pay to the Company, at the Company's option, an amount not to exceed fifty (50) percent of the charge in dispute or an amount based on usage during a like period under similar conditions which shall represent the amount not in dispute. The Company shall not discontinue service to a customer for nonpayment of charges in dispute while that dispute is pending.
- F. Failure of the customer to pay to the Company the amount not in dispute within four (4) working days from the date the dispute is registered or by the delinquent date of the disputed bill, whichever is later, shall constitute a waiver of the customer's right to continuance of service and the Company may then proceed to discontinue service as provided in this tariff.
- G. If the dispute is ultimately resolved in favor of the customer in whole or in part, the Company must promptly repay any excess moneys paid by the customer.
- H. If the dispute cannot be resolved to the satisfaction of the customer, the Company shall notify the customer of its right to make an informal complaint to the Commission, and of the address and telephone number where the customer may file an informal complaint with the Commission.
- I. After resolution of the customer complaint, the Company may treat a second complaint based on the same facts as already determined.
